Clean Beaches Week - 1st July 2020

We are so lucky to live near the seaside. Many people have to travel many miles to enjoy the soft sand and cool blue sea. However, unfortunately some people do not take care of our beaches and oceans. Plastic and other rubbish is left on the beaches and washed up by the sea. This is not good for the wildlife and the environment.

FACT! Last year, over 8500kg of rubbish was collected off beaches across the UK. That's the same as nearly 9000 bags of sugar!

Why not do your bit to help keep our beaches clean by doing some of these activities!
